sales@LXconcept.com - www.LXconcept.com

Relations are essential to success. We understand relations as a network of connections between people, regardless of whether they are our suppliers, customers or partners. At the end of the day, good emotions have the biggest influence on building business relations. We will help you to evoke emotions with our sweets. After all, nothing arouse emotions more than a little bit of sweetness.

What we are presenting to you in **our newest catalog**, are not only high quality products, distinguished by their unique taste and stylish packaging – these are the sweet bricks for good and long lasting business relations. Our sweets will be perfect business gift, expression of gratitude, appreciation and acknowledgements – our sweets are simply good emotions.

But that's not all... In our work we follow the motto „We only have one Earth, and its future depends on every seemingly small human action, depends on each of us“, therefore each of our products is created with a sense of high environmental awareness.

- We are a participant in the **Rainforest Alliance** certification program, and our chocolate products are UTZ certified,
- For production of our packaging, we use **FSC certified** paper, which means that it came from recycling or wood for the production of paper comes from controlled cuttings and it's obtained in a way that protects forest ecosystems,
- We also use biodegradable films and PLA bio-plastic to pack our products,
- We use packaging in which we have managed to reduce the use of film by 65%, replacing plastic with paper,
- For packing parcels, we use paper tape and 100% biodegradable fillers to protect your sweet order during the delivery.

We also make sure that our products meet the highest safety requirements. The International Featured Standard (IFS Food) certificate we hold is a guarantee that they are produced, packed and distributed in accordance with the highest international food safety standards.

We know that even the smallest action is an important step for us and our partners.

Meet our new products ...

International Featured Standard (IFS Food) which guarantees the highest level of safety of food, compliance with law and a consistent quality of products offered. It is also an assurance that produced sweets are completely safe.

The FSC® label means that materials used for this products have been responsibly sourced.

All UTZ certified products are produced according to the UTZ standard, which is guided by the principles of fairness and transparency. The UTZ program enables farmers to learn better farming methods, improve working conditions and take better care of their children and the environment.

This symbol means that we can use biodegradable and environmentally friendly, film for the production of packaging. Customers can choose between standard or biodegradable films.

This icon has been assigned to packaging fully made of biodegradable materials.

This icon has been assigned to products packed in paper with thin layer of film – the content of plastics has been reduced by 65%.
